

• Celebrate Alaska's 50 Years of Statehood •

PLANT *a* TREE

MAY 15 – JULY 15, 2009

Celebrate Alaska's 50 years of statehood by giving a gift that will grow over time – a tree. Trees improve with age and as they grow so will the benefits they provide future generations. With proper care, your tree can be honored as a living monument to statehood when Alaska celebrates its 100th anniversary in 2059.

Plant your 50th anniversary tree on public land and register it with the Alaska Division of Forestry Community Forestry Program. You will receive a certificate to display in a public place as a reminder of the commemorative tree and its significance.

For a registration form, information on selecting a tree that is appropriate for your site, and guidelines for planting and maintenance, visit us at:

<http://forestry.alaska.gov/community>

<http://forestry.alaska.gov/community>

The Alaska Community Forestry Program is supported by grants from the USDA Forest Service.

Register your 50th Anniversary Tree online or mail the attached form. A photograph and map of the location of each tree registered will be featured on the Alaska Division of Forestry website.

Trees must be planted between May 15 and July 15, 2009 to qualify for a certificate.
